

Spotting Problem Gambling

Problem gambling shares many similarities with other addictions. However, there are usually no visible signs or physical changes that directly indicates there is a gambling problem.

Some common signs are:

- > The person gambles more than they intended.
- > The person is feeling guilty about the way they gamble.
- > The person wants to stop betting but feels as if they can't.
- > The person gambling is hiding betting slips, lottery tickets or money for gambling.
- > The person gambling is borrowing money and not repaying it.
- > The person gambling is losing time from work or school due to gambling.
- > Feeling restless or irritable when attempting to cut down or stop gambling.
- > Jeopardising or losing a significant relationship, job, or education because of gambling.

If you notice yourself, a colleague or a family member/friend in any of these statements, our services can provide support!
